Residential Centres 2023

The Field Studies Council is proud to operate 11 residential properties throughout the UK in some spectacular buildings and diverse natural environments. The centres provide full board accommodation for up to 160 people with generous sized workrooms, interactive whiteboards and free wifi to support groups working in outdoor environments. Select centres have specialist field equipment including a marine vessel or RIB for charter. There are also adventurous activities available at our AALA licenced centres.

- Over 80 years of environmental education and fieldwork delivery
- Access to a range of fieldwork sites
- Comfortable accommodation
- Large meeting rooms with interactive whiteboards
- Full board catering, with unlimited tea and coffee facilities
- Wet weather gear available for hire
- Free wi-fi internet access
- 24hr duty and on call system
- Free pre-visits with planning support from centre staff
- Select centres have specialist equipment including marine vessels.

Parking	30 cars 3 coaches
Garden	Yes
Seasonal opening	March to October

Local Attractions

With easy access to both the coastline of Morecambe Bay, the glaciated uplands of the southern Lake District and the lakes of Windermere and Coniston, Castle Head is ideally situated for a wide range of both field studies and adventurous activities.

How to get there

By Car: Perfectly located only 20 mins from the M6, 1.5 hours' drive from Liverpool and Manchester. Follow the A590 sign posted for M6 then join the B5271.

By Train: The nearest railway station is Grange over Sands on the Barrow to Manchester Airport line.

By Bus: The X6 bus connects Ulverston with Lindale.

 **Field Studies Council**
Dale Fort

Dale Fort is set in a spectacular location high on the cliffs within the Pembrokeshire Coast National Park, giving superb views over the sea. Built in 1856 to defend the Milford Haven waterway against invasion, it has been a field centre since 1948. It is ideally located for coastal studies and for accessing Skomer Island with its renowned resident sea bird populations, including puffins, guillemots and razorbills.

Bed capacity	144 (136 comfortably)
Total no. of bedrooms	33
No. of en-suite bedrooms	18

Local Attractions

- Great water-sport areas and facilities including tuition and sailing craft hire.
- Close proximity to surf beaches: West Dale (5 mins), Broad Haven (20 mins) and Newgale (40 mins).
- On the Wales Coastal Path.
- Walking access to very exposed and sheltered rocky shore habitats and saltmarsh.

How to get there

By Road: From the M4 (Junction 49) follow the A48 to Carmarthen and then the A40 to Haverfordwest. From Haverfordwest take the B4327 to Dale. There is no coach access to Dale Fort, a drop off in the village is required. We provide a luggage shuttle.

By Train: The nearest railway station to the Centre is Milford Haven.

By Bus: Service 315 from Haverfordwest & Milford Haven.

Field Studies Council

Flatford Mill

Flatford Mill is the first and original field studies centre which was set up in the UK during the 1940's. It is the centre for Constable Country, set amidst the quintessentially English countryside of the Dedham Vale in Suffolk and sitting on the banks of the River Stour. Flatford Mill runs residential field study visits for school students and provides a very wide range of natural history and art courses.

Bed capacity	88
Total no. of bedrooms	24

Field Studies Council is an environmental education charity providing opportunities for people of all ages and abilities to discover, explore and understand the natural world.

With a proud history of almost 80 years, the charity has a network of UK locations providing high quality fieldwork and outdoor learning. Working to open the minds of young people to the wonders of their environment through first-hand experiences is as important today as it was in 1943 when Field Studies Council first started.

Field Studies Council believes that the more we know about and take inspiration from the world around us, the more we can appreciate and protect its diversity for future generations.
